

# The failure to protect our borders harms our security and costs our taxpayers –

Tom Gallagher has a plan to do something about it, while Charlie Crist supports amnesty for the 700,000 illegal immigrants now living in Florida!

Charlie Crist is on the same side as John Kerry, Ted Kennedy, and Hillary Clinton and support a liberal immigration plan that conservatives say “rewards lawbreaking,” “will lead to increased illegal immigration,” and is “impossible to administer.”

# Illegal Immigration costs Florida taxpayers \$2 billion every year.

*Make no mistake about it – a problem of this magnitude affects every one of us in Florida.* The U. S. Census Bureau estimates there are 12 million unlawful aliens in this nation, 700,000 of them here in Florida. This puts Florida behind only Texas and California. Such a large number of undocumented individuals creates an undeniable burden on state services that costs each Florida household nearly \$315 every year!

But it doesn't stop with financial costs. With continued threats of international terrorism, Florida must act as the first line of defense in protecting the Homeland. With over 1,100 miles of coastline, our state officials must be vigilant in their efforts to enforce immigration laws.

## Tom Gallagher has announced a four point plan to fight illegal immigration

1. Give Florida law enforcement officers the power to arrest and detain those who have violated federal immigration law.
2. No hiring of illegal aliens by those who contract with the state government.
3. Expand Florida's anti-illegal immigration partnership with the Department of Homeland Security
4. Continue to work with our neighbors in Latin America and the Caribbean to encourage democracy and trade

## The Charlie Crist Plan to fight illegal immigration:

1. Let them stay!
2. Make Florida's taxpayers pay for their children's educations, their health care, and their welfare costs – estimated to be \$2 billion every year!

**Let's tell Charlie Crist we are tired of paying the tab for illegal immigration!**
