Florida Board of Governors  
State University System  
325 West Gaines St. Suite 1614  
Tallahassee, Fl. 32399

Chancellor Brogan,

On behalf of every West Palm Beach student in the Florida State University College of Motion Picture Arts Animation and Digital Arts program, we are writing to address you with our collective opinion regarding the false representation and lack of interest the Board of Governors has taken in our standpoint on the possible relocation of our program.

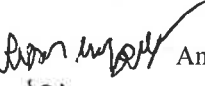

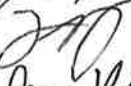

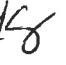

Our voices have not been taken into account by the Board of Governors. None of us were personally addressed throughout the decision making process regarding the future of our education. The Board has seemingly made no effort to understand our curriculum, nor have they reached out to the student body, yet a verdict was assigned in our "best interest." We request that you speak to us personally before a final decision is made by the Board of Governors.

The devotion and loyalty we receive from the faculty and staff of Florida State University is unparalleled. It is clear to us that our faculty has a well thought out program that will ensure we receive the best education possible. This program has an opportunity to establish a strong foundation for the film industry in the State of Florida, and students have come from around the country to be a part of this process to develop an economically successful film industry.

We have invested our time, our finances, and our future as we pursue our dreams.

If you wish to speak on our behalf, speak to us first.

Sincerely,  
The FSU Animation and Digital Arts Inaugural Class of 2015
