To whom it may concern,

Again thank you for the continued interest in my travel. It should also be noted that I traveled to Europe and around the U. S. during 2016, including Washington, D. C. and also met with members of Congress and other political officials. It should also be noted that I attended the Democratic National Convention in Philadelphia (after traveling to the "Middle East") Below you'll find the answers to your new questions. I hope you shared my previous answers, but if not I'll again tag my media friends to assist in getting your message out. Just want to be helpful!!

Proud Americans,

As you may know, in May of 2016 Senator Dwight Bullard traveled to the middle east to meet with members of the PFLP, an organization that the US State Department classifies as a foreign terrorist organization that has murdered innocent civilians in synagogues, supermarkets, and other familial locations. [Click here to read an article about the PFLP's murderous ways.](#)

Immediately upon returning from this trip, **Dwight Bullard hosted a meeting in Coral Gables on June 3rd with "like-minded" anti-Semitic, potentially pro-terror people. (Ans.: You can contact my legislative office to confirm that we hosted NO such meeting on June 3rd. My office number is 305-234-2208)** What was discussed in this meeting? **(Ans.: Again not sure which meeting you're referring to)** Who attended? **(Ans.: I'm still unsure as to which meeting you're speaking of)** Are the authorities aware of this meeting? **(Ans.: Meetings that I host are open to the public, but again my office hosted no meeting on June 3rd.)** Is the FBI investigating this matter? **(Ans.: Doubtful)** These are some of the many questions that Senator Bullard refuses to answer. **Please note that i just answered them.**

To make matters worse, Bullard compared these terrorists to Nelson Mandela in a recent tweet, and he refuses to apologize. **(Need you to publish the tweet where I compared Nelson Mandela to terrorist. The tweet I have infers that Mandela was once called a terrorist, but would not be considered one now. You know kind of the way religion and society will punish you for wrongdoing, but allow you to redeem yourself.)** Seriously? **N/A** Has Dwight Bullard lost his mind? **Not yet** Does Dwight Bullard hate America? **(Nope I still love my country, but you seem to really HATE me.)**

Dwight Bullard made us less safe by meeting with terrorists. He can't be trusted, and he must be fired.
